## Biography

### Charles B. Daniels

**Director of Civil Information Technology Programs - Raytheon**

Mr. Daniels has over 29 years of experience in communications, information systems, change management and quality improvement in both government and commercial enterprises. He has extensive experience in program management for large-scale, mission-critical systems; system development lifecycle analysis; planning and implementation; systems engineering; line management and engineering; culture change and management consulting. He has supported NASA Human Space Flight, Science and Aeronautics Research programs for over 22 years at the Goddard Space Flight Center, the Johnson Space Center, the Langley Research Center and the Marshall Space Flight Center. Mr. Daniels has extensive experience in assisting organizations in developing and implementing plans to achieve business excellence and culture change. He served for five years as a member of the Board of Senior Examiners for the Malcolm Baldrige National Quality Award of the National Institute of Standards and Technology. Mr. Daniels currently serves as the Raytheon Director of Civil Information Technology Programs. In this capacity, he has overall executive management and leadership responsibility for all Raytheon NASA Information Technology contracts at the Langley Research Center, Goddard Space Flight Center and Marshall Space Flight Center. In aggregate, these programs are worth over \$300 million. Mr. Daniels is a member of the NASA Langley Research Center Executive Safety Board and is the founder of the ConITS Leadership Institute. In addition, Mr. Daniels is a lecturer in the George Washington University Engineering Management and Systems Engineering Graduate Program. Mr. Daniels is the RTSC representative to the Raytheon Company Program Leadership Council.
